<input type="button" value="Add Song"/>	

1. Select ‘Manage Playlist’ from under the menu tab ‘Song of the Day’ on the left hand side of the admin dashboard.
(this will present you with a current list of all the songs present on the playlist, along with the option to reorder the songs (*drag & drop*), as well as add new, edit, or delete songs)
2. Next Select ‘Add New’ from under the menu tab ‘Song of the Day’ on the left hand side of the admin dashboard, or top of the screen.
3. The selected ‘Playlist Name’ should always be ‘Song of the Day’
4. Upload the desired MP3 & OGV files into the available fields by selecting ‘Upload’
(theora.ogv is an audio file extension that will increase the number supported devices for the media. You can convert an .mp3 to .ogv using a number of free audio converters, including ‘Miro’ which is available in the Mac App Store.)
4. Enter the Title for the new Song, this will appear both on the site’s tracklist & above the player, when selected.
5. Upload the cover image you would like to display next to the Song by selecting ‘Upload’ under the available field.
(The image should be 180px by 180px minimum, and may be added through the attached uploader, or you may use an existing image URL)
7. Enter the duration of the Song, which will allow for greater control when scanning the track.
8. Enter the Artist for the Song, this will appear above the player when the appropriate track is selected.
9. Click ‘Add Song’, and smile! You just added a new Song of the Day to your site.
