User Manual: *How to Manage Categories*

How to Manage Categories

1. Your products in Jigoshop component can be assigned to the category. In order to add a new category, go to **Products > Categories** in your admin panel

2. Add your new category details to the fields and click on "Add new product category" button.

Name	Description	Slug	Products
New category	This is the new category	new-cat	0
Longboards		longboards	2
Mid Length		mid-length	6
Shortboards		shortboards	2

3. You will notice that the new category has appeared in each products categories list. Match the categories you would like to assign the product for and click on **Update** button.
