**User Manual:** *How to Manage Featured Products*

## How to Manage Featured Products

1. You can add new product or use an existing one to assign as **Featured**, simply check the box to **enable option to feature this product** in Product Data tab option an add a **Featured Image**.
2. Click **Publish** button to save the changes.
3. Go to **Appearance -> Widgets**. Drag the 'Featured Products' widget to the appropriate sidebar.
4. Then, we can edit the title, text limit and how many posts we want to display.

5. That's it. We've added Featured product successfully. Our product will now appear in newly added **Featured Products** widget section of your site.
